PROFILE

BCA Graduate and Python Full Stack Developer with hands-on internship experience building scalable web applications using Django, Flask, Angular, and React. Skilled in REST API design & integration, database management (MySQL, MongoDB), and version control (Git/GitHub). Demonstrated project experience including a full-stack Student Management System and a web-based Calorie Management Tracker. Passionate about clean code, problem-solving, and building user-focused web solutions.

TECHNICAL SKILLS

Languages & Scripting

Python, JavaScript, HTML5, CSS3

Frameworks & Libraries

Django, Flask, Angular, Bootstrap, jQuery

Databases

MySQL, PostgreSQL, MongoDB

Tools & Platforms

Git, GitHub, REST APIs, Web Scraping

SOFT SKILLS

- Agile Workflows & SDLC
- Collaborative Problem-Solving
- Debugging & Troubleshooting
- Software Development Life Cycle
- Code Optimization & Clean Code
- Technical Documentation

PROFESSIONAL EXPERIENCE

Python Full Stack Developer Intern

Kochi, Kerala

Quest Innovative Solutions Pvt Ltd

- Architected full-stack web applications using Django and Flask, implementing MVT architecture, user authentication, and role-based access control.
- Designed and integrated RESTful APIs to facilitate seamless asynchronous communication between front-end interfaces (HTML, CSS, JavaScript) and backend logic.
- Optimized relational database schemas using MySQL and Django ORM, writing efficient SQL queries and indexing strategies to improve data retrieval speeds.
- Engineered modular backend systems applying Object-Oriented Programming (OOP) principles and clean code practices for maintainable project structures.

PROJECTS

Calorie-Tracker

Quest Innovative Solutions Pvt Ltd - Python Full Stack Developer Intern

- Developed a web-based Calories Management System to help users track daily food intake, monitor calorie consumption, and maintain healthy eating habits.
- Enabled users to log meals, calculate total daily calories automatically, and view consumption history with date-wise summaries.
- Implemented reports and dashboards to analyze calorie intake on a daily and weekly basis, improving diet awareness and consistency.
- Designed modular features including User Authentication, Food Management, Calorie Tracking, and Admin Management with role based access.
- Built the application using Python, Django (MVT architecture), HTML, CSS, JavaScript, and SQLite/PostgreSQL, leveraging Django ORM for database operations.

ACADEMIC PROJECTS

Air bag detection

- This project aims to improve passenger safety by developing an AI camera-based system for airbag detection and automatic email alerts to emergency services.
- The proposed System uses an AI camera to monitor the vehicle's cabin and detect airbag deployment.
- Technologies Used: Python, OpenCV, Machine Learning algorithms, SMTP (for email alerts).

INTERNSHIPS / CERTIFICATES

Microsoft Azure AI Essentials: Workloads and Machine Learning on Azure –
LinkedIn Learning (Aug 2026)

08/2026

Completed an in-depth, hands-on learning path focused on Microsoft Azure AI Studio, building robust foundational and practical expertise in modern artificial intelligence. Gained strong proficiency in designing, evaluating, and deploying end-to-end Machine Learning models and Generative AI workflows within cloud environment architectures. Applied cloud-based AI services to solve complex tasks, integrating advanced model management, automated evaluation metrics, and scalable AI solutions directly into production pipelines

Oracle Agentic AI Foundations Associate
Certificate

2026

Certified in core AI agent concepts, including autonomous reasoning patterns (Chain-of-Thought, ReAct), agent orchestration with LangChain, Model Context Protocol (MCP), OpenAI Agents SDK, and OCI Enterprise AI Agent deployment.

ACURA SOFTWARE SOLUTIONS (Internship)

Palakkad, Kerala

Assisted in designing and building full-stack applications utilizing Python for backend logic, HTML/CSS/JavaScript for responsive frontend components, and MySQL for database storage. Participated in REST API creation, database schema optimization, and system integration to deliver end-to-end web solutions.

EDUCATION

Bachelor of Computer Applications

2021 – 2024

University of Calicut, Sadanam Kumaran College Mankara

Palakkad, Kerala

Higher Secondary Education in Computer Science

2019 – 2021

GHSS Udma

Kasargod, Kerala

Secondary Education

2019

Ambika English Medium School

Kasargod, Kerala

LANGUAGES

English

Speak, Read, Write

Hindi

Speak

Malayalam

Speak, Read, Write

HOBBIES AND INTERESTS

Fitness and health | Playing outdoor games
